

The background of the slide is a light gray field filled with a dense, repeating pattern of small, light gray geometric shapes. These shapes include squares, rectangles, and hexagons, many of which are further divided into smaller squares or triangles, creating a complex, tessellated effect. On the left side of the slide, there is a solid orange vertical bar. In the center-right area, there is a large orange square containing a white square. Inside the white square, the text "Dynamic Space" is written in a dark gray, sans-serif font.

空间

本无域，因人而产生界域，随人类的发展，相“际”相生；与时间相对的一种物质存在形式，表现为长度、宽度、高度；也指数字空间、物理空间与宇宙空间。而具像到人的生活状态下的空间则包含“天、地、墙、光、声、味等诸多元素”，而这些元素均需因应人的感知和不断追求，与时俱进，优化衍生，服务于人这一主体。

SPACE

This has no domain, due to the human boundary, with the development of human, domain was created; A form of physical existence as opposed to time, represented by length, width, and height; Also exponential space, physical space and cosmic space. However, the space with the image of people's living state contains "sky, earth, wall, light, sound, taste and many other elements", and these elements need to adapt to people's perception and continuous pursuit, keep pace with the times, optimize and derive, and serve people as the main body.

活态

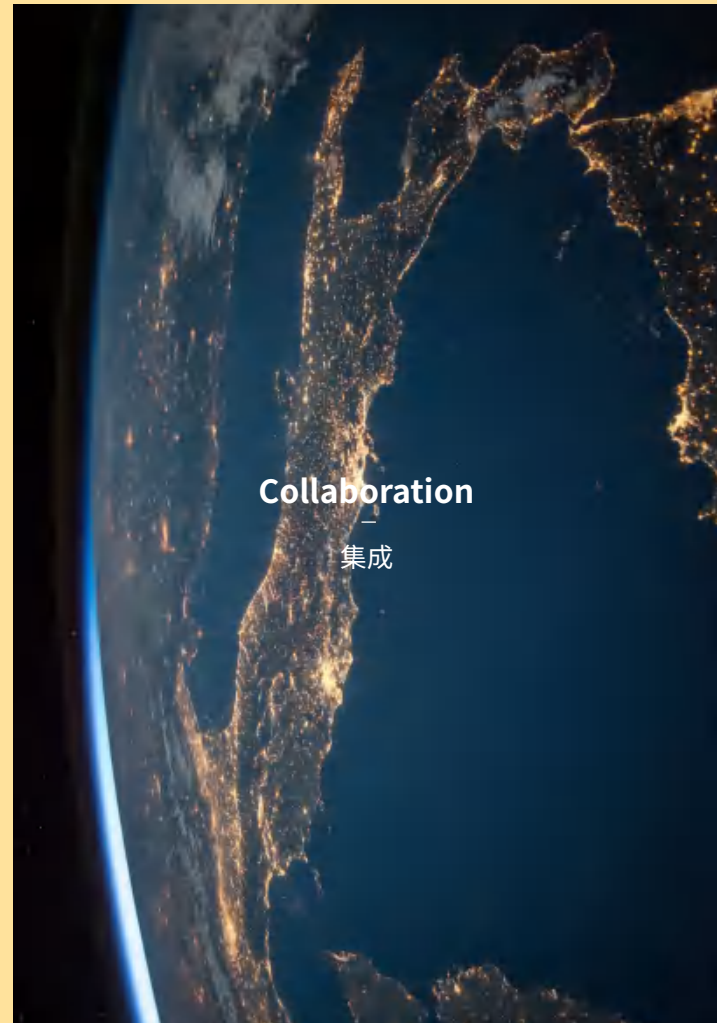

将灵动、生态、生长、繁衍以及相互作用的方式与状态，应用于设计的发展，特指那些需要在“系统设计”框架下融合多学科知识背景、多专业协同工作，且具有灵活性、动态性与可变形性的设计工作模式。“活态设计”以人为本，解构了相对固化、边界清晰的设计专业门类，顺应“用户”需求，重构特定的设计“场所”。

DYNAMIC

Apply the modes and states of flexibility, ecology, growth, reproduction and interaction to the development of design, especially those requiring the integration of multidisciplinary knowledge background and multi-professional collaborative work under the framework of "systems design". It also has a flexible, dynamic and deformable design working mode. Based on people, "Living Design" deconstructs the relatively solidified and well-defined professional design categories, and reconstructs specific design space to meet the needs of users.

SLIM DESIGNER

After graduating from the Media & Design Academy in Belgium, designer Joeri Reynaert entered the industry as furniture designer for Extremis, a renown outdoor furniture brand established by Dirk Wynants. Soon after he moved to Italy to become an in house designer for the lighting brand Foscarini, working together with established designers such as Nendo, Jean Marie Massaud, Luca Nichetto and Stefan Diez. While working for Foscarini, Joeri also developed a lamp collection for fashion giant Diesel. As an independent designer he presented his first collection at Interieur 2012, Belgium and Salone del Mobile 2012, Italy. In 2014 he moved to China to set up Dirk Wynants' design studio in Shanghai. He also established a 4 year undergraduate program and was lecturing at the DeTao Master Academy, Shanghai. In 2018 Joeri started his own design studio in Shanghai and is now designing for several start up and established brands in China.

设计师 Joeri Reynaert 毕业于比利时媒体与设计学院，正式踏入家具行业后，任职一家由德克·威南茨创立的知名户外家具品牌 Extremis 的家具设计师。不久后，他搬到意大利，成为照明品牌 Foscarini 的室内设计师，与 Nendo、Jean Marie Massaud、Luca Nichetto 和 Stefan Diez 等全球知名设计师合作。在 Foscarini 工作期间，Joeri 还为时尚巨头 Diesel 开发设计了一个灯具系列。作为一名独立设计师，2012 年，他分别在比利时及意大利最大的家具装饰展上展示了自己的第一个系列。2014 年，他来到中国，在上海成立了德克·威南茨 (Dirk Wynants) 设计工作室。还创办了一个 4 年制的本科课程，并在上海德陶硕士学院任教。2018 年，Joeri 在上海成立了自己的设计工作室，目前正在为中国的几个初创和知名品牌设计。

The Slim collection of VICTORY is conceived to evoke a soft and welcoming feeling to the user. Because of its round corners , it feels less serious and safer than the average office workstation. The smooth shape reminds of organic elements, in order to bring a natural feeling within the office environment. The signature design detail comes back in various functions of the collection, such as high tables and shelves. This detail creates the unique look of the modular Slim collection that can be endlessly combined according to the needs of the company.

这款百利 SLIM 职员工作站系列旨在给企业员工带来一种柔和舒适的使用体验感。使用了圆角的设计，弱化了正式感，但又比一般的职员工作站更安全。流畅光滑的设计感很容易让人联想到各种自然生物形态，为办公环境带来自然的元素。百利标志性的设计细节在该系列的各种功能中回归体现，比如吧台和置物架，模块化的设计可随时根据企业员工的不同需求进行不同的搭配组合，为工作站带来各种独特的外观。

AREA Chair

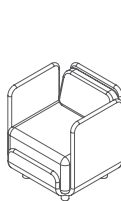

Area is a modular seating system that provides different levels of privacy when needed. By adding different parts to the basic seat, you can make almost any type of configuration to suit your needs. You can build anything from a comfortable private single seat, a high-back and roofed two-seat sofa, or a 99 seat (I may have 99 problems, but the seat is not one) low-back sofa. The seat system can be used with casters if you feel the need to move them.

GIANT DONUT

The giant donut is actually, as its name suggests, just a giant donut that you can sit on. But for this particular purpose, the job is well done. You can choose to sit on the edge, or be really comfortable in the middle hole. This huge piece of pastry is ideal for cold regions and lounges. The fabric is easy to change, thanks to an oversized zipper on the side. This means you don't have to worry if you happen to spill coffee on it.

GIANT DONUT 甜甜圈

巨型甜甜圈实际上，正如它的名字所告诉我们的，只是一个你可以坐在上面的巨型甜甜圈。但就这一特殊目的而言，这项工作做得很好。你可以选择坐在边缘，或者在中间的洞里真正舒服。这片巨大的糕点是寒冷地区和休息室的理想之选。由于产品侧面有一个超大的拉链，布料很容易更换。这意味着你不必担心如果你恰巧把咖啡洒在上面。

THE BOX SOFA & THE BOX LOUNGER

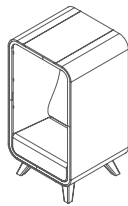

Box sofas provide a quiet and visually concealed coverage of ambient noise and movement. Generally, this problem occurs in open-space offices and public spaces. Box sofas can also be used as room dividers and are available in different colors to match your interior environment. When two sofas are used face to face, it creates a "room within a room", taking advantage of the possibility to strengthen teamwork among colleagues. Be creative and think in a box.

88 酷壁 88系统

CUBE 88 Series

多种设计可选性，双层玻璃、单层玻璃及板材，在这里都能得到满足。模块化结构，易于安装和拆卸，钢框架让其拥有更加出色的防火性能。

With various design choices, double glass, single glass and sheets, can be satisfied here. Modular structures are easy for installation and disassembly, and steel frames offer more outstanding fire-proof performance.

酷壁 45系统 CUBE 45 Series

45

灵活适应性强的办公室布局是现代办公设计和产品应用的先决条件。系统模块化结构使它易于安装和拆卸，而最重要的是，它重复利用率高达 90%，极大地控制了成本。

Flexible office layout is the precondition for modern office design and product application. Modular structures are easy for installation and disassembly. Above all, it can meet various usages and save the cost, has the repeated utilization factor up to 90%, and can largely reduce fitment cost.

50 酷壁 50系统 CUBE 50 Series

50

50 系统是一个纯玻璃的工作空间分割系统，单层玻璃提供了办公空间最大的透明度，模块化结构使它易于安装和拆卸，而最重要的是，它能够满足广泛的用途并控制成本。

The 50 system is a pure-glass work space division system. Single glass offers the supreme transparency for office space, modular structures are easy for installation and disassembly, and above all, it can meet various usages and save the cost.

CUBE Self -adaptive design

Flexibility and adjustment to fit the floor & ceiling height

Parameter: + 20mm Purpose: fit and solve the tolerance at site construction.

Flexible width adjustment to wall column and pillars

Parameters: end edge plate, adjusting by rail + 20mm Purpose: fit and solve the tolerance at site construction.

CUBE 酷壁自适应设计

天地调节-高度弹性调节

参数：± 25mm 意义：能消除建筑本身的误差以及测量的误差。

墙柱收边-宽度弹性调节

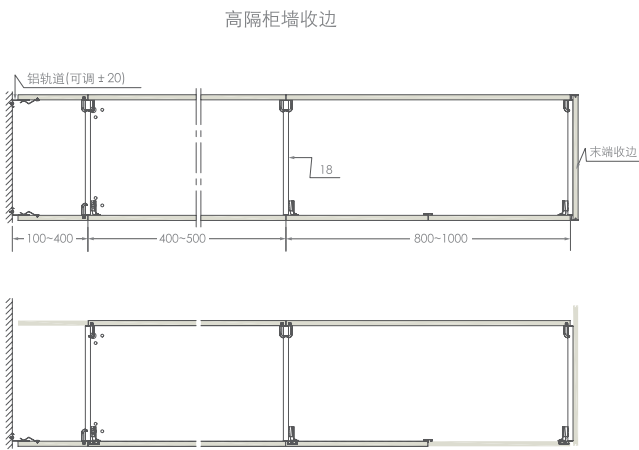

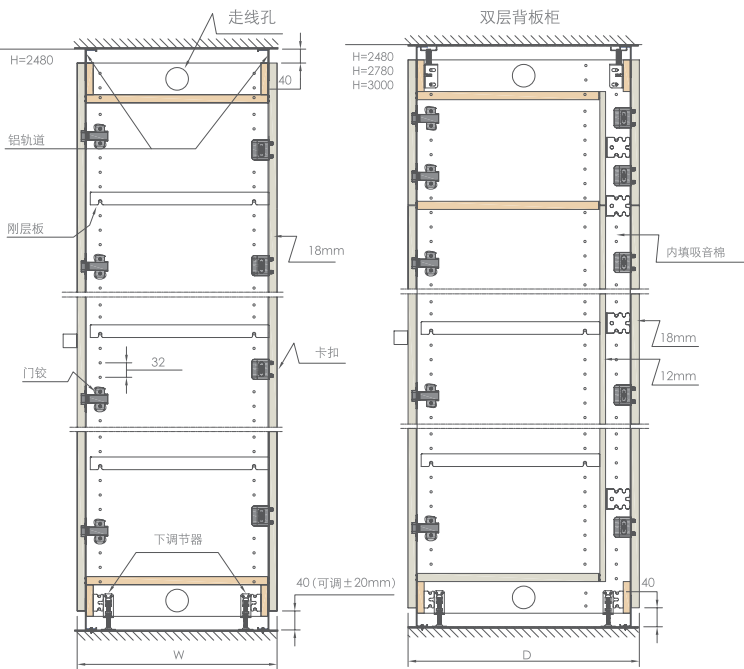

参数：末端收边板，通过轨道调节 ± 25mm 意义：能消除建筑本身的误差以及测量的误差。
